Platforms & tools: Figma, WordPress, WooCommerce, Elementor, Shopify, GitHub, Docker, Vercel, Adobe
AI: AI-assisted development with Claude Code

EXPERIENCE

MONUN AG | Senior Product Designer & Developer — Switzerland (remote) | 2024 - Present

- Designed and built a custom CRM, mapping user journeys and designing dashboards, account management, permissions and workflows for invoicing, recurring billing and payments.
- Designed a real-estate platform to replace the client's static brochure website, starting with a review of competing Swiss property sites. Delivered map-based property search, shareable filtered views, clear availability states and listing management, built in Next.js, TypeScript and Supabase.
- Created wireframes, high-fidelity prototypes and Figma UI kits to define information architecture, content hierarchy, navigation and interaction patterns.
- Led UX/UI design for 10+ websites and digital projects, from competitor analysis and stakeholder interviews to launch, including admin dashboards that let clients manage projects and update content independently.
- Designed reusable UI components and responsive interfaces in Figma and React, keeping products visually consistent, accessible and usable.
- Owned QA, accessibility checks and launches, and set up continuous deployment that cut deployment time by 40%.

Business Leaders AG | UX/UI Designer & WordPress Developer — Switzerland (remote) | 2020 - 2024

- Conducted user research and usability testing, using the findings to improve navigation, page structure and interaction patterns.
- Designed 20+ responsive client websites in Figma with clear information hierarchy and consistent mobile behavior, and built them in WordPress and Elementor.
- Optimized WooCommerce product and checkout experiences, implementing custom front-end functionality in JavaScript and React.

Mardal | UX/UI Designer & WordPress developer — Kosovo | 2018 - 2020

- Designed and launched 20+ responsive websites, handling UX/UI, page architecture and implementation.
- Designed editable content layouts that simplified routine content updates for non-technical client teams.
- Improved navigation, usability and accessibility across client websites.

Prior Marketing GmbH | UX/UI Designer & WordPress Developer — Switzerland (remote) | 2015 - 2018

- Designed UX/UI for business websites and applications, defining responsive layouts, navigation and visual hierarchy.
- Developed and launched 16+ WordPress websites with custom page templates, ensuring consistent behavior across desktop, tablet and mobile.
- Produced logos, brand assets and campaign materials across digital and print formats.
